CASE FOR TYPE

This conveniently shaped wooden box expedites the selection of the offset type. The time saving alone is worth many times the cost of this inexpensive container. This 12" x 12" x 1 1/8" box is divided into 49 individually marked sections. A sliding cover keeps type dust-free and prevents the type from mixing.

CHASE

Fixture to hold type.

HAND VALVE KITS

(H1HD) Used on Model A3FT to add hand valve control. (Hand valve, hose and fittings.)

(H2HD) Used on Model A4AC to convert to Model A5AH. (Hand valve, hose, fittings, couplers and hardware.)

FOOT VALVE KITS

(H3FT) Used on Model A2HD to add foot valve control. (Foot valve, hose and fittings.)

(H4FT) Used on Model A4AC to convert to Model A6AF. (Foot valve, hose, fittings and hardware.)

AUTOMATIC KIT

(H5AC) Used on Model A2HD or A3FT to convert to Model A5AH or A6AF. (2-way air valve, couplers and miscellaneous hardware.)

FURNITURE (Metal)

Used as spacers between lines. Available in two different lengths: **Full Length** – Approximately 4.3" long.
Half Length – Approximately 2.1" long.

A set of either of the above consists of:

- 1 pc. 1/2" (.500), 3 pcs. 1/3" (.333), 2 pcs. 1/6" (.167),
- 5 pcs. 55 mils (.055), 3 pcs. 25 mils (.025),
- 7 pcs. 15 mils (.015)

RUBBER ROLLERS

3/4" dia. x 5" long on arbor 1/4" dia. x 7 1/2" long.

LOCK

Used to secure type and furniture in proper position inside of chase.

WRENCH

Used to expand lock.

BRAYER

Hand roller used to spread ink over platen.

OFFSET TRANSFER PAD

4 1/2" x 3" x 1/2" synthetic rubber pad.
